I often see paid tandem paragliding experiences in the Luye area. Are these operators managed by the East Longitudinal Valley National Scenic Area Headquarters? Is their business legal?

## Response Content

Operators offering tandem flights are private business activities, and they use their own take-off and landing areas, therefore they are not within the management scope of the East Longitudinal Valley National Scenic Area Headquarters. To determine whether their business operations are legal, you may contact the Business Management Section of the Economic Affairs Department of Taitung County Government to inquire whether they have legally applied for permits (Tel: 089-326141).
